PROVEN SUCCESS

Alutiiq Subsidiaries safely work 24/7, 365 days a year on residential campuses throughout the country. This commitment to safety is why we consistently operate the safest Job Corps Centers in the country.

We work with over 2,000 at-risk youth annually to develop them academically, technically, and socially, and set them on a career path of professional advancement and lifelong learning.

Alutiiq Education & Training, LLC took over the Flint Genesee Job Corps Center in 2004, when it was ranked 118th out of 118 nationally in performance. Within the first year of our operation, the Center was performing in the top third of all Job Corps Centers nationwide.

Graduates from Alutiiq-operated Job Corps Centers have the education and technical skills to get the job, and the soft-skills to keep it and turn it into a career. Our well-trained and credentialed graduates are our success.

"The guidance of both of your instructors and the talents of their students, has taken a rundown house and turned it into a gem for Flint's Grand Traverse Neighborhood. It is great to see the talents of our youth impact a neighborhood, a City, and a family."

- Habitat for Humanity (Flint Genesee Job Corps Construction Trade Students)
